

NEERAJA EKAMBARAM

Data Analyst

Tirupati, Andhra Pradesh | +91-6305692872 | eneeraja123@gmail.com
linkedin.com/in/neerajae

PROFILE

Recent Computer Science and Engineering graduate with hands-on experience in SQL, Python, and Tableau/Power BI for data extraction, analysis, and dashboarding. Comfortable turning ambiguous problems into structured analysis through academic projects and internship work in Data Science and Machine Learning, including building AI/GenAI-enabled solutions. Seeking an entry-level Data Analyst role to independently own analytical problems end-to-end and drive AI-native, business-focused decision-making.

EDUCATION

Sri Padmavati Mahila Visvavidyalayam (SPMVV) <i>B.Tech – Computer Science and Engineering</i> CGPA: 7.2 / 10	2022 – 2026 <i>Tirupati, Andhra Pradesh</i>
Chinmaya Vidyalaya <i>Intermediate – CBSE</i> Percentage: 72%	2020 – 2022 <i>Tirupati, Andhra Pradesh</i>
Chinmaya Vidyalaya <i>Secondary School Certificate – CBSE</i> Percentage: 75%	2020 <i>Tirupati, Andhra Pradesh</i>

TECHNICAL SKILLS

Programming & Query	Python, SQL
Visualization	Tableau, Power BI, Microsoft Excel
Data Analysis	Data Cleaning, Exploratory Data Analysis (EDA), Data Interpretation, Dashboarding
Power BI	Power Query, DAX, Interactive Dashboards
AI / ML	Generative AI & LLM basics, Explainable AI (XAI), Deep Learning fundamentals
Libraries	Pandas, NumPy, Matplotlib
Tools	Jupyter Notebook, Microsoft PowerPoint, Canva
Core Skills	Problem Solving, Analytical Thinking, Data Storytelling, Stakeholder Communication, Teamwork

ACADEMIC PROJECTS

Student Performance Analysis Dashboard	<i>Power BI / Power Query / DAX</i>
- Analyzed 1,000+ student academic records to identify performance trends, attendance patterns, and at-risk student indicators. - Cleaned and transformed raw datasets using Power Query to improve data accuracy and consistency. - Developed interactive dashboards using DAX measures to monitor grades, attendance, and academic progress – enabling self-service access to insights for stakeholders. - Presented data-driven insights to support academic performance improvement and decision-making.	
NeuroChain – AI-Powered Secure Diagnostic System	<i>Python / Deep Learning / Blockchain</i>
- Developed a hybrid BiLSTM-CNN model for detecting seizures from EEG data, applying an end-to-end analytical workflow from raw data to model output. - Integrated Explainable AI (XAI) techniques to improve the interpretability of model predictions – an AI-enabled solution built to support real-world decision-making. - Combined AI, security, and data concepts to independently scope, build, and deliver a working diagnostic system end-to-end.	

INTERNSHIP EXPERIENCE

ExcelR Solutions <i>Data Science & Machine Learning Intern</i>	2025 <i>2 Months</i>
- Worked hands-on with Python and SQL for data extraction, preprocessing, and exploratory data analysis on real datasets. - Performed data cleaning, analysis, and interpretation to generate insights using Python libraries (Pandas, NumPy, Matplotlib). - Built a working understanding of data-driven problem solving and machine learning workflows, translating raw data into structured findings.	

CERTIFICATIONS

- Data Analytics with Python** – NPTEL
- Data Visualization: Empowering Business with Effective Insights** – Tata, Forage
- Deloitte Data Analytics Job Simulation** – Forage, 2026

WORKSHOPS & ACHIEVEMENTS

- Workshop on Full Stack Development using Django – CELESTRA'24 National-Level Tech Fest
- Third Prize** – SBI Life Drawing Competition
